John Doe

New York, USA | 📧 johndoe@email.com | 📞 +1 234 567 8901 LinkedIn: linkedin.com/in/johndoe | GitHub: github.com/johndoe

Professional Summary

Al Engineer with 3+ years of experience in machine learning, deep learning, and natural language processing (NLP). Proficient in Python, TensorFlow, and cloud-based Al solutions. Passionate about building Al-driven applications to solve complex problems.

Technical Skills

- Programming: Python, C++, SQL
- Machine Learning: Scikit-Learn, TensorFlow, PyTorch
- Natural Language Processing (NLP): NLTK, Transformers, BERT
- Deep Learning: CNNs, RNNs, LSTMs
- Cloud & Deployment: AWS, Azure, Docker, Kubernetes
- Databases: MySQL, PostgreSQL, MongoDB

Work Experience

Al Engineer | ABC Tech Solutions | 2021 - Present

- Developed and optimized AI models for predictive analytics and NLP tasks.
- Built and deployed deep learning models using TensorFlow and PyTorch.
- Designed and maintained Al-powered chatbots for customer support.
- Improved model efficiency by 30% using hyperparameter tuning techniques.

Machine Learning Intern | XYZ Al Labs | 2020 - 2021

- Assisted in training NLP models for sentiment analysis.
- Developed data preprocessing pipelines to clean and structure large datasets.
- Conducted A/B testing to evaluate model performance.

Education

Master's in Artificial Intelligence | University of XYZ | 2020 Bachelor's in Computer Science | ABC University | 2018

Projects

- Al Resume Matcher Built an NLP-based system to match resumes with job descriptions.
- Fake News Detection Developed a deep learning model to classify fake news articles.

• **Autonomous Drone Navigation** – Implemented reinforcement learning for drone movement.

Certifications

- AWS Certified Machine Learning Specialty
- TensorFlow Developer Certificate
